SECTION B – SELECTION CRITERIA

In addition to the generic selection criteria listed in the Granting Guidelines applicable to all Osprey grants, applications for Arts Legacy Fund grants will also be assessed against the following arts-specific criteria.

Applicants should include appropriate information in the text boxes below to enable the Osprey Community Foundation review panel to assess how their proposal meets these specific criteria.

Please note that successful projects do not necessarily have to contain all these elements; however, the stronger they reflect these criteria, the greater their likelihood of success.

1. Mentorship

Criteria: The project includes mentorship opportunities for young and emerging artists.

2. Artistic merit or excellence

The artists who will carry out the project have demonstrated competence in their field, and in the opinion of the Osprey arts advisory panel, the work or activity to be carried out under the project has significant artistic merit that will enhance the arts reputation and/or capacity of the Nelson area.

3. Originality/Innovation

The project includes an element of originality or introduces a new artistic experience to the Nelson area. In addition to the creation of a new artist work, originality/innovation would also include such elements as the premier performance of a work in the Nelson area or the introduction of a form of artistic expression new to the Nelson area.

4. Local interest, involvement and relevance

The project has significant connection to the Nelson area through the individuals involved in implementing the project, those who will create the artistic work involved, and/or the nature or theme of the work itself. That individual artists or groups of artists will be the most likely source of ideas for worthwhile projects.
